Any additions or deletions from agenda: Dispatching for the Fire Department. The WVFD would like to have the 911 calls go directly to Shelburne, currently they go to Westminster and then get dispatched from Shelburne. To change the process to a one-step process, the Select Board would need to start the process with a letter to 911 requesting this change. The select board were all in favor of this and signed a letter to request this change.

Larry Wilbur requested an increase in the appropriation for the Fire Department. The board said they would not be able to decide until they did the budget for next year. (Talked to Larry on phone)
