Any additions or deletions from agenda: Bev Freeguard asked why they do not use the pile of stone stored on Stickney Rd to fix that road? Steve explained that the stone up there is the stone that caused flat tires a few years ago. Bob also explained that by just putting stone down it will not fix the problems. There are logs under that road, Bob and Steve are working on a plan to correct the problems with Stickney RD. They will be putting more gravel on the road this year and hopefully they can correct the problems next year.

Bob let everyone know that Kay Kenneally is a road sign salesperson.

Steve talked to Gary DuBois about paving Shoreham-Whiting RD. Gary said he hopes to get to it this year, the weather has pushed them way back.

Mike Bertrand will no longer be a town employee. The town will still hire MJB for different projects.
