Old Business:

New Business: Richard Clark from Otelco wants to discuss upgrading the internet service.

Richard came to go over the presentation for upgrading the internet to fiber optic. Otelco is looking for a Letter of Support from the Town, to help get Grant money. The project will take about 2 ½ years. There will be no cost to the Town and every place in Whiting will be able to hookup if they choose. Also, there will be no cost to hookup to the fiber optic internet service, and the new router is included in this. At this time the new internet rates would be \$60-\$80 depending on the speed you choose for your internet service.
